Sustainn

CSR Strategy 2019-2021

Accessibility e inclusion

At Sustainn we work to build a more inclusive and accessible world. We promote these concepts through our services and training. We learn every day from the IDDEAS Foundation, with which we collaborate helping organizations to generate labor and social inclusion, including all people. We also work to make this possible in developing countries,

Main Challenges

- ▶ Diagnosis of the accessibility and inclusion situation.
- ▶ Protocol for inclusive communications.
- ▶ Economic contribution to promote real accessibility and inclusion.
