

Commitments

Sustainn

CSR Strategy 2019-2021

Equality

At Sustainn we are committed to equality. It is one of our main values. We assume our responsibility in the improvement of society and the role we play in responding to the demands in this area.

And also, from the inside, we have the intention to work for a continuous improvement of effective equality through our equality plan.

We have established objectives for the 2019-2021 period. Their performance can be found in the annual sustainability report.

Main Challenges

- ▶ Continuous improvement of equality and work-life balance measures for employees
- ▶ Equality protocol for working with collaborating entities
- ▶ Economic contribution for the reduction of inequalities.
